

## **Public Information Meetings**

Nebraska Resources Company, LLC proposes to construct a 13-mile-long natural gas pipeline from the Phillips area south of the Platte River east to Aurora. The pipeline will be approximately 1/2 mile south and parallel to US Highway 34. This pipeline will be part of the infrastructure support system to a larger pipeline connecting additional facilities serving east-central Nebraska. It will also provide additional natural gas for biofuels economic development in the region.

**Aurora - Thursday, December 13, 2007**

**5:30-7:30 p.m. – Stop by anytime!**

**Presentation at 6:00 p.m.**

**The Leadership Center - 1609 E. Hwy. 34**
